Director Tom Hannigan;

I urge you to support the "CALFED Bay/Delta" program. A plan for how to protect and use California's water resources for the next 50 years.

I care about protecting our rivers, bays and drinking water. Building new dams and canals will not protect wildlife, especially fish and watersheds.

The CALFED program will:

Invests in water efficiency for at least seven years before even considering new dams or reservoirs;

Restores our rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers;

Improve water quality for people and wildlife by enforcing pollution limits;

Stops making taxpayers pick up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Sincerely;

*Stephen P. Walker*
